

InformationInterface

```
classDiagram
    class InformationInterface
    class InfoMeshObjectPlugin
    class InfoSkeletonObjectPlugin
    InformationInterface <|.. InfoMeshObjectPlugin
    InformationInterface <|.. InfoSkeletonObjectPlugin
```

The diagram illustrates a class hierarchy. At the top is a box labeled 'InformationInterface'. Below it are two boxes: 'InfoMeshObjectPlugin' on the left and 'InfoSkeletonObjectPlugin' on the right. A horizontal dotted line connects the two bottom boxes, with a solid vertical arrow pointing upwards from the center of this line to the bottom edge of the 'InformationInterface' box, indicating that both subclasses implement the interface.
