

QDialog

RendererObjectWidget

RendererObjectWidget

```
classDiagram
    class QDialog
    class RendererObjectWidget1[RendererObjectWidget]
    class RendererObjectWidget2[RendererObjectWidget]
    QDialog <|-- RendererObjectWidget1
    RendererObjectWidget2 <|-- RendererObjectWidget1
```

The diagram illustrates a class hierarchy. At the bottom is a box labeled 'RendererObjectWidget'. Two arrows point upwards from this box to two separate boxes at the top. The left box is labeled 'QDialog' and the right box is labeled 'RendererObjectWidget'. This indicates that the bottom 'RendererObjectWidget' class inherits from both 'QDialog' and the 'RendererObjectWidget' class above it.
