

QObject

QScriptable

prototypeVec4d

```
graph BT; prototypeVec4d --> QObject; prototypeVec4d --> QScriptable;
```

The diagram illustrates a class hierarchy. At the bottom is a box labeled 'prototypeVec4d'. Two lines extend upwards from this box, branching out to two boxes above it: 'QObject' on the left and 'QScriptable' on the right. Each line ends in an arrowhead pointing towards the upper boxes, indicating that 'prototypeVec4d' is the base class for both 'QObject' and 'QScriptable'.
